Sindhi - Native / Bilingual

## ABOUT

I am raised in Dubai and Bahrain, and I am currently pursuing an UG Visual Communication and Digital Designing International Diploma at École Intuit Lab in Mumbai, India. As an effective communicator and an incredibly curious creative, my work tends to be inventive and original. In my free time, I like to dance, paint, exercise, read and watch movies. I am a quick learner and readily flexible when working in new environments because of the multi-culture I have been widely exposed to.

## INTERNSHIP OBJECTIVE

I am applying for an internship mainly to seek hands-on experience in the creative field which includes understanding how a project goes from the very beginning to the end, how to work with clients and tend to their needs and to work with professionals in their own field. I would like to broaden my skills even further whether it's work related or engaging with my colleagues when working in a team on a project.

I work with great passion towards any project that comes my way and can work best under the following divisions; Branding, Typography, Illustration, Graphic Design and Web Design. In my portfolio, you will find work which fall under the same catogories. I thrive in both scenarios whether it's on an individual project or when a part of a team project.

## WORK & EXPERIENCE

- I have worked as a freelancer on a few projects which entailed logo designing, banner designing, packaging and making visiting cards for businesses.
- I have spent my two gap years in excelling at my fine art skills. I am a skilled artist when it comes to charcoal, oil painting, pencil and acrylic painting.
- I have worked predominantly on my personal projects over the past year, some of which you will see on my portfolio.
- At university, I have been a group leader of various group projects.

## KEY SKILLS

- Time Management
- Leadership Skills
- Team Work
- Patient
- People Skills
- Communication
- Professionalism and Strong Work Ethic
- Willingness to Learn
